Pure Bio Ltd. ist ein Unternehmen vor allem für Ärzte und Heilberufe, deren Ziel es ist Top Produkte für ihre Patienten anzubieten. Die Grundüberzeugung von Pure Bio Ltd. besteht darin, dass jedwede Nahrungsergänzungsmittel ausschließlich unter Anleitung von erfahrenen Ärzten oder Heilberuflern eingenommen werden sollten. Daher werden nur Bestellungen angenommen, wenn die Produkte von einem lizenzierten Heilberufler verschrieben wurden. Neben Pure Encapsulations Produkten bietet Pure Bio Ltd. eine Auswahl von orthomolekularen, pflanzlichen und homöopathischen Testsätzen an. Nutritional Supplies

Suppliers of Pure Encapsulations

**A Company created by Practitioners,
for Practitioners**

Pure Bio Ltd. was first conceived by British healthcare practitioners with the primary aim of providing top quality products for their patients.

It is the belief of Pure Bio Ltd. that nutritional supplements of all forms should be taken only under the guidance of an experienced physician or practitioner and we therefore accept orders only when the products have been prescribed by a licensed healthcare professional.

It is our intention as a company, not only to provide top quality products to our customers, but also to ensure ongoing educational development. With this in mind, we endeavour to keep practitioners up to date with new and relevant research and provide them with information on new products that are being developed or existing products that have been improved.

Pure Encapsulations & more ...

As well as supplying Pure Encapsulations products, Pure Bio Ltd. also supply a range of orthomolecular, herbal and homeopathic test kits, which are designed particularly to be of use to practitioners using muscle testing as a tool for diagnosis of deficiencies and disorders.

In addition the company sells a wide variety of patient information leaflets, educational books and AK wall charts, and numerous other education based resources.

We are a small company dedicated to providing a first class service to all those who deal with us. We therefore welcome feedback and suggestions from our customers.
